Senior Software Engineer | Tech Lead

Open to relocation (EU/Australia) | Visa sponsorship required

Professional Summary:

Senior Software Engineer and Tech Lead with 12+ years of experience building scalable, high-performance applications across web, cloud, and AI domains. Proven track record in leading cross-functional teams, architecting distributed systems, and delivering enterprise-grade solutions using Node.js, Python, React, and AWS.

Strong focus on **system design, cloud architecture, and AI-driven applications**, including hands-on experience with **LLMs, LangChain, and Agentic AI systems**.

Technical Skills:

Languages: Python, JavaScript (Node.js), TypeScript, PHP, Java

Frameworks: Django, FastAPI, Express.js, React.js, Vue.js, Flask, Laravel

AI & Data: LangChain, LangGraph, OpenAI, Anthropic, Bedrock, TensorFlow, Pandas, NumPy, Pinecone, ChromaDB

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, API Gateway, DynamoDB), Docker, Kubernetes, Terraform, GCP

Tools: Git, GitHub, GitLab, Bitbucket

Work Experience:

- **Full Stack Developer | Simpalm** (November 2021 – Present, Remote)
 - Architected and maintained enterprise-grade web applications using Node.js, Django, and React.
 - Designed and implemented **microservices-based architecture** deployed on AWS (EC2, Lambda, RDS, S3)
 - Built and optimized REST APIs handling **high-volume concurrent requests**, improving system performance and response times
 - Led a team of developers through **code reviews, mentoring, and agile delivery**, improving development efficiency
 - Implemented **CI/CD pipelines using Docker and Kubernetes**, reducing deployment time and improving reliability
 - Collaborated with stakeholders to align technical architecture with business goals.

- **Managing Director | Northeast Software Technologies** (November 2019 – October 2021, Guwahati, Assam)
 - Founded and scaled a software development company delivering web, mobile, and GIS-based systems
 - Led a team of **10+ engineers**, improving delivery timelines by **25% through agile practices**
 - Designed and delivered end-to-end solutions using **Node.js, Laravel, and Vue.js**
 - Managed architecture, client communication, and product delivery lifecycle
- **Software Developer Consultant | Amigo Optima Software Solutions** (September 2018 – October 2019, Guwahati, Assam)
 - Developed and optimized backend systems using **Laravel and Vue.js**, improving performance and scalability
 - Delivered web and mobile solutions with focus on **efficient API design and system architecture**
 - Advised on **digital transformation strategies** for client systems
- **Project Manager | Digitalant** (July 2016 – June 2018, Guwahati, Assam)
 - Managed multiple concurrent projects with cross-functional teams.
 - Introduced **agile methodologies**, reducing turnaround time and improving delivery consistency
 - Designed backend systems and integrated APIs with mobile (Android) applications
- **Lecturer | Assam Engineering Institute (Polytechnic College)** (August 2013 – July 2015, Guwahati, Assam)
 - Taught computer science subjects, guided student projects, and mentored aspiring engineers.
 - Built strong foundations in **algorithms, systems, and software engineering principles**

Education:

- **M. Tech in Computer Science and Engineering (Network Security)**
Assam Don Bosco University, 8.4 CGPA (August 2015 – July 2017)
 - **B. Tech in Computer Science and Engineering**
Assam Don Bosco University, 7.8 CGPA (August 2008 – July 2012)
-

Achievements:

- Published research papers on VOIP, Big Data, and Social Network Forensics.
 - Qualified GATE examination.
-

Languages: Fluent in English and Hindi

Interests: Travel, Swimming, Technology, Sudoku, Problem Solving
